

Product Info

Did you know Resolution X has a huge stock of Black Velveteen Poly drapes available? Available in 3.6m, 6.0m and 9.0m drops, we stock enough to cover most studios, theatres, function halls event spaces and exhibition centres.

If you're looking for a starry look, we also stock a series of LED drapes.

Along with these drapes ResX also stocks plenty of rigging options to hang them and even a Kabuki system for when you want to drop them (on cue of course).
